

Artifact Arrangement

Classroom-ready printable pack · Grades 3–8

Pack contents

original/public-domain-based artifact cards, metadata, classification mats, and blanks Two student sets are included.

Teacher directions

1. Give partners identical cards and mats; keep the model/challenge hidden from the Builder.
2. The Describer selects a historically scoped challenge and arranges the evidence or system.
3. Communicate dates, locations, roles, relationships, uncertainty, and evidence precisely.
4. Compare with the reference, correct unsupported links, and identify what the model leaves out.

Before class

- Print at 100% on US Letter paper. Use cardstock or laminate for reuse.
- Cut on the thick solid borders. Keep Set A and Set B separate.
- Give challenge/model cards only to the Describer.
- Use a folder, book, or tabletop barrier so partners cannot see each other's work.

Accessibility and accommodations

Reduce the card set; read labels aloud or use text-to-speech; provide the vocabulary strip and a completed example. Cards pair words with symbols/patterns and include write-in options.

Scope, evidence, and source review

Artifact drawings/descriptions are original generic examples. Context, provenance, material analysis, and expert review matter; appearance alone cannot establish date, use, ownership, or cultural meaning.

These packs simplify complex systems for barrier communication. Confirm terminology and scope against district-adopted sources before formal assessment; distinguish evidence, inference, uncertainty, and perspective.

Content review recorded 2026-08-05; educator and local-curriculum review recommended.

Quality check after a round

- Can each student identify pieces by shape or label without relying on color?
- Do both models match in pieces, order, orientation, and relative position?
- Which direction was most precise? Which should be revised?
